

FREEZE TAG

Step 1: Get a group of friends together – the more the better!

Step 2: Decide who will be “it.”

Step 3: “It” will chase the others to tag them. Once tagged, the person must freeze in the position they were in when tagged.

Step 4: A player can only be unfrozen if a person (who is not “it”) tags them.

Step 5: Keep playing until every player is frozen but one. The last untagged person becomes “it.”
